**PRECAUTIONS:**

KEEP OUT OF REACH OF CHILDREN AND INEXPERIENCED PERSONS

DO NOT TRANSPORT OR STORE WITH FOOD.

DESTROY EMPTY PACKAGES TO AVOID OTHER USES.

IN CASE OF POISONING TAKE THIS LABEL TO THE DOCTOR.

THIS PRODUCT MUST BE MARKETED AND APPLIED IN COMPLIANCE WITH CURRENT PROVINCIAL AND MUNICIPAL REGULATIONS.

DANGER. INCORRECT USE MAY CAUSE DAMAGE TO HEALTH AND THE ENVIRONMENT.

READ THE LABEL CAREFULLY.

**GENERAL PRECAUTIONARY MEASURES:**

Avoid contact with skin, eyes and contamination of food. Use gloves and appropriate protective clothing (overalls) during application. After use, wash all parts of the body exposed to contact with the product thoroughly with soap and water. Do not moisten the product. Do not apply the product in piles. Do not ingest, do not drink, do not eat, do not smoke during use. Keep the product in its original bag. Do not use the product with other chemicals or fertilizers. Store away from heat and humidity.

## ENVIRONMENTAL HAZARDS

PRACTICALLY NON-TOXIC TO BIRDS.

PRACTICALLY NON-TOXIC TO FISH.

SLIGHTLY TOXIC TO BEES. Exposure is not expected given its use and physical state.

## TREATMENT OF REMNANTS AND APPLICATION MIXTURES:

Use adjusted product quantities, to avoid large surpluses. When the contents of the package are partially used, the remainder must be stored in a warehouse located in an isolated place, protected from climatic factors.

## TREATMENT AND METHOD OF DISPOSAL OF EMPTY CONTAINERS

EMPTY CONTAINERS MUST NEVER BE REUSED BUT APPROPRIATELY DESTROYED BY PUNCTURING OR COMPACTING. Once empty, render useless and place them in drums or containers, in a safe place until transfer to authorized Collection Centers that will carry out the final disposal.

## STORAGE

Keep the container closed in a well-dry and cool place, away from heat sources. Keep out of reach of children or inexperienced persons and away from food for people or animals.

## SPILLS

In case of spill, sweep and collect the product and place it in identified containers for shipment and subsequent destruction by authorized companies.

## FIRST AID

If inhaled, move the affected person to fresh air, away from the contaminated area. If breathing difficulty persists, seek medical attention. In case of skin contact, wash the affected area with plenty of water and soap. In case of eye contact, wash with plenty of water for several minutes. If irritation appears, seek medical attention. In case of accidental ingestion seek immediate medical attention. DO NOT INDUCE VOMITING.

## WARNING FOR THE DOCTOR

CLASS IV – PRODUCT THAT NORMALLY DOES NOT PRESENT DANGER

INHALATION CATEGORY II – (HARMFUL)

MILD EYE IRRITANT – CATEGORY IV – (CAUTION)

NON-DERMAL IRRITANT

NON-DERMAL SENSITIZER

**ANTIDOTE:** no specific antidote. Apply symptomatic treatment.

### SYMPTOMS OF ACUTE POISONING

Nausea, vomiting, hyperexcitation, tremors, convulsions.

### SPECIAL TOXICOLOGICAL WARNINGS

None.

### CONTACTS IN CASE OF POISONING

- Toxicology Unit of the General Children's Hospital of Bs. As. Dr. Ricardo Gutiérrez. Tel. (011) 4962-6666 and 4962-2247.

- Children's Hospital. City of Córdoba, Córdoba -Tel.: (0351) 433303
- Hospital Sor M. Ludovica, La Plata. Tel. (0221) 4515555

### TOXICOLOGICAL COMPATIBILITY

There is no evidence of synergism, additivity or potentiation.

### PRODUCT GENERALITIES

CIBUS-H® is a ready-to-use granular bait, insecticide-ant insecticide for the control of leaf-cutting ants.

### INSTRUCTIONS FOR USE: PREPARATION

No preparation required, this is a ready-to-use formulation.

### EQUIPMENT, VOLUMES AND APPLICATION TECHNIQUES

Apply the bait directly from its container, next to the paths where the ants travel, at times of greatest ant activity.

### USAGE RECOMMENDATIONS

- Do not apply when rain is imminent.
- Do not touch the bait with your hands.
- Apply 10 grams per hole, next to the access path.
- Do not apply on the path or inside the anthill holes.

### CONTROLLED PESTS:

Isaú ant (*Atta vollenweideri*), Common black ant (*Acromyrmex lundii*)

### USE RESTRICTIONS

By its recommended use, it has no withholding period.

“In the case that the crop or its by-products are intended for export, the maximum residue limit of the destination country must be known and the withholding period corresponding to that tolerance value must be observed.”

### RE-ENTRY TIME TO THE TREATED AREA

There is no established time as long as re-entry is with appropriate protective clothing.

### COMPATIBILITY

Mixture with other products is not recommended.

### PHYTOTOXICITY

None.
